

Certificate III in Competitive Systems and Practices (MSS30322)

Engage your workforce and release their potential with a Certificate III in Competitive Systems and Practices

The LEAN 6 Certificate III in Competitive Systems and Practices is a nationally accredited qualification that enables your team members to improve their work practices with proven Lean tools and operational excellence techniques. This qualification is delivered in partnership with our affiliate, the Australian Society for Quality (AuSQ) - RTO ID 22526.

By involving your workforce in a Certificate III program, your team will be able to apply realistic, relevant and effective tools that will dramatically improve their performance and help sustain continuous improvement efforts.

These tools can be used to improve any product and process, and are applicable to a range of industries including manufacturing, healthcare, information technology, utilities and financial services, to name a few.
