

Certificate IV in Competitive Systems and Practices (MSS40322)

Engage your workforce and release their potential with a Certificate IV in Competitive Systems and Practices

The LEAN 6 Certificate IV in Competitive Systems and Practices is a nationally accredited qualification that gives supervisors and operational staff the skills needed to lead workplace improvements in quality, cost, delivery and customer satisfaction. This qualification is delivered in partnership with our affiliate, the Australian Society for Quality (AuSQ) - RTO ID 22526.

At the core of this qualification are Lean tools and Continuous Improvement techniques. A number of units also cover areas such as leadership, workplace learning, communication and change management.

These tools can be used to improve any product and process, and are applicable to a range of industries including manufacturing, healthcare, logistics, utilities and financial services, to name a few.
