## About LEAN 6

LEAN 6 is a leading Lean Six Sigma consulting and training organisation focusing on the transfer of knowledge and skills. Our clients achieve Business Excellence through learning and development of their people supported by highly experienced Lean and Six Sigma practitioners.

We are a recognised training organisation and deliver the full range of certifications in Lean, Six Sigma and Change Management.

We adopt the GE (General Electric) standard for certification and in partnership with our sister company, Australian Society for Quality, deliver the highest quality and recognised certifications in Lean Six Sigma.

LEAN 6 in partnership with the Australian Society for Quality further delivers government accredited qualifications in Competitive Systems & Practices.

## Benefits

- 1 Develop skills and capability of your employees
- 2 Increase productivity & competitiveness
- 3 Improve business growth & profitability
- 4 Improve quality of products & services
- 5 Enhance predictability of operations
- 6 Increases customer satisfaction

## Lean Operations

## Six Sigma Quality

## Competitive Systems & Practices

# Lean Operations

Lean eliminates non-value adding tasks which leads to significant reduction in cycle time and waste.

# Six Sigma Quality

Six Sigma eliminates defects by reducing process variation.

# Predictable and Capable Processes
